

Claims Preparation

Disneyland Construction Project, Hong Kong

PROJECT

Hong Kong Disneyland is a joint project by The Walt Disney Company and the Hong Kong government.

QualSurv consultants were commissioned by contractors working on the project to prepare claims submissions against the developer for varied works associated with "front" and "back of house" sections of a number of the theme park constructions.

QUALSURV INVOLVEMENT

QualSurv consultants involvement for the contractor provided the detailed information they needed to pursue claims submissions with confidence.
