

Claims Preparation

Tunnel Construction Project, Singapore

PROJECT

This project was commissioned for the creation of a new tunnel in Singapore.

QUALSURV INVOLVEMENT

QualSurv's consultants worked in conjunction with the tunnelling contractor to prepare significant time and cost claims against the employer for delays relating to ground conditions.

Our work involved researching the issues and their effects and compiling claims entitlements. Our consultants' expertise was invaluable in drawing up comprehensive, well-researched and reasonable claims entitlements to take forward
