

## Employer's Representative

## Chipping Warden/Portbury Docks

### PROJECT

Chipping Warden is the site of a disused World War II airbase and is one of a number of logistic depots operated by Autologic Holdings.

Portbury is one of largest facilities operated by Autologic Holdings and QualSurv acted as Employer's Representative managing a number of schemes within the site.

### QUALSURV INVOLVEMENT

QualSurv was responsible for a range of schemes for upgrading parking and transit areas within the complex. Our role included site appraisal, investigation and survey, production of drawings, specification and tender enquiries.
